Objective

I am currently a Computer Engineering student and I would like to work in your company as I am looking for a serious work experience, immediate availability. I would be willing to perform very well in any job that is available to me, I adapt very quickly to the position, I have a facility for relating to people and I like to face the obstacles that come my way. My desire is to adapt to the needs of the company and take advantage of the possibility of working in your team, to grow as a professional and give the best of my qualities. I consider myself someone who achieves what he sets out to do, since I believe that achievements are the results of the decisions that are made and the goals that each one sets as a purpose, I try to improve who I am and what I do constantly.
